

### From the European Forum Chair

**The European Forum Pre-Conference Seminar takes place on Tuesday 6th August 2013, from 9:00 – 16:00, the day before the European Regional DKG Conference in Amsterdam starts.**

The discussion topic will be: **Education for everyone.**

DKG Members and their guests, will have the possibility of discussing questions like:

- Are we taking care of everyone in the educational system?
- Why do we allow bullying in society?
- Are second language individuals doing well enough?
- How are we supporting them?
- Are we prepared for the future concerning digital literacy?
- How do we meet students with disabilities?
- How do we support migrant women? How is inclusion/integration in our educational system?
- These are question that go over borders. How can we strengthen the links between European countries? How can we connect and support each other?

Let's also think of the education outside schools, i.e. adult education. Education does not end in schools anymore. We are going to learn as long as we live.

Of course we cannot address all these questions in one day, but every single question is worth reflecting on.

We want you to take part in this day with us, and if you want to contribute to the discussions, please let us know.

Looking forward to seeing you in Amsterdam
